Survey Methodology

The survey, "Most Unusual Jobs 2005," was conducted from August 10 to August 22, 2005. Methodology used to collect survey responses totaling more than 2,450 workers for this study involved selecting a random sample of comScore Networks panel members. These Web Panel members were approached via an e-mail invitation, which asked them to participate in a short online survey. The results of this survey are statistically accurate to within +/- 1.97 percentage points (19 times out of 20).
